UNIQUE AND EXCLUSIVE PIECES

Refinement, luxury, elegance: Arte nel Design creations combine the splendor of art with the unconventional approach of design, to create environments with a rarefied and timeless atmosphere. Unique pieces able to create evocative artistic corners, scenographies full of charm that satisfy the aesthetic sense and the desire for beauty. Between contrasts of color and tone on tone nuances that dissolve between paintings and furnishings, shapes and materials create a continuum that, as in a mosaic, creates unique and exclusive settings, as precious as real works of art.

# THE “BORGO OF DESIGN IL TORCHIO” CARIMATE (CO)

Set among the Brianza hills, in the region of Lake Como, surrounded by lush forests and green golf courses, the medieval village of **Carimate**, with its magical atmosphere and the imposing charm of its Castle, is the place chosen by Franco Molteni, Livio Ballabio, Sergio Consonni and Giulia Raggesi as headquarters of the innovative brand Arte nel Design.

In the ancient heart of the town, in the area called **“Il Torchio”** in an evocative space divided between offices and showrooms, the Arte nel Design headquarters are presented as a real Temple of Art: an experimental and innovative space that aims at promoting the village to bring it back to its ancient glory.

The collaboration with the numerous local artisans, in a land, the Brianza, which has always been a homeland of furnishing and design, allows to obtain unique and inimitable pieces that enclose the knowledge handed down from generations while at the same time contributing to the enhancement of a territory unique for traditions and culture.

A Design Village all to be discovered, to live personally the universe of Arte nel Design and to get to know the people who every day dedicate passion and enthusiasm to the project, but also to take advantage of the strategic position in which the venue is located for starting to discover a unique territory.
